

Specification

Released conveyor lubricants
Container and pack conveyor

1 Released conveyor lubricants

The following list contains all conveyor lubricants released by Krones

Depending on the type of conveyor lubrication system, a distinction is made between the following lubricants:

- Dry lubricant
- Wet lubricant
 - The wet lubricants also include water-reduced conveyor lubricants.
- Hybrid lubricants
 - Hybrid conveyor lubricants can be used in both wet and dry lubrication systems.

Selection of the proper conveyor lubricant

Which product is most suitable depends heavily on the local conditions, so the choice of the right container lubricant must be made together with the local chemical supplier.

Pack conveyor system

All wet lubricants specified in the table are also released for pack conveyors.

Manufacturer	Product name	Type of conveyor lubrication system		
		Dry	Wet	Hybrid
CHP	DLT333	X		
CHP	DLT310	X		
Diversey	Dry Tech 4	X		
Diversey	Dry Tech 1/C	X		
Diversey	DryFormance PB1	X		
Diversey	DryFormance GS3	X		
Diversey	Dicolube Sustain-1		X	
Diversey	Dicolube Sustain-2		X	
Diversey	Dicolube Sustain-3		X	
Diversey	Dicolube Sustain-5		X	
Diversey	Speedloob		X	
Diversey	SpeedConc		X	
Diversey	Dicolube HCS		X	
Diversey	Dicolube CA		X	
Diversey	Shurlube H		X	
Diversey	Dicolube Super PET		X	
Diversey	Dicolube TPB		X	
Diversey	Dicolube CR		X	
Diversey	Dicolube D64		X	
Diversey	Dicolube BLP		X	
Diversey	Dicolube Lujob		X	
Diversey	Dicolube 300		X	
Diversey	Dicolube Advanced		X	
Diversey	Dry Tech TL	X		
Diversey	Dicolube CT		X	
Diversey	Dicolube RS148 new		X	
Diversey	XEL-380		X	

Released conveyor lubricants
